RIORDAN, DAWSON & CO., No. 149 East Bay, Charleston, S. C.

The Charleston News.

SATURDAY, APRIL 2, 1870.

NEWS OF THE DAY.

-Gold yesterday at New York closed at 11\fa11\f. -At New York cotton closed quiet and

steady at 221. Sales 1200 bales. -The Liverpool cotton market closed firm and unchanged. Sales 12,000 bales. -Tennessee is rapidly filling up with Ger-

man emigrants. -Imprisonment for debt has at length been abolished in Rhode Island.

.The number of Mormons who practice polygamy is said not to exceed two thousand. -The spring style of bonnets is described as "something like a sun-flower on the peak of a hay-stack."

-The biggest shoes for women made in the Philadelphia market go to Utah; the smallest are ordered from Havana.

-Here and there in California a storekeeper announces that he will "receive greenbacks at

-The University of Virginia contains 464 students, of whom not above 15 come from Northern States. -The London Times regret the reluctance

of the First Lord of the Admiralty to reduce the naval estimate, and ascribes it to a chronic error that England is responsible for the police of the ocean. -The newest style for dressing the hair is cailed "the Cleopatra." The hair is brushed

high off the forehead and braided low in the neck, surrounded by a large imitation snake, which is colled around the head. -An Indian lawyer recently charged a client

\$10 for collecting \$9, but said he would not press him to pay the other dollar for a few days, if it would be more convenient for him to let it stand -Chemistry does wonders. It has built a

butter factory on a wharf of the Thames, where a delicious or at least a saleable article of print butter is extracted from the mud of that river. The extract is originally a pure white fat, without taste or smell, but is manipulated into well-flavored butter, and duly stamped with the likeness of a cow.

-A meeting was held in Baltimore a few nights ago, to complete the organization of a company for the erection of an Academy of ward to their destination. All these things Music in that city. Dr. J. Hanson Thomas can be arranged, and an excellent opportuwas elected president, and Israel Cohen, Esq., nity for so doing will be had at the Convensecretary and treasury. A committee was ap- tion of the County Agricultural Societies pointed to solicit subscriptions to the capital stock of \$300,000, divided into six thousand shares of the par value of fifty dollars each, The name of John E. Owens, the famous comedian, is prominently mentioned for the management of the Academy of Music.

-A great bill is now before the British House of Commons. It is a bill for amending and consolidating the acts relating to shipping and navigation, and is so comprehensive as to embrace everything connected with shipping registry, masters and seamen, accidents, delivery of goods, liabilities of shipowners, wrecks and salvage, pilotage, lighthouses, harbors, shipping dues, crimes, &c., forming a complete shipping code. It fills two hundred and ninety-five folio pages, and contains about seven hundred clauses, and an index occupying forty pages.

-The "pedespeed" is the name of the latest Yankee notion for the purpose of increasing man's natural speed. The velocipede having played out, except as a device to increase labor, the "pedespeed" comes in. It consists of two wheels, fourteen or fifteen inches in diameter, one of which is attached firmly to each foot by means of a stirrup-like contrivance, and, to those who understand it, possesses all the capabilities of the skate. To use it requires skill acquired only by practice, but, when acquired, there is skating the year round-so says the inventor.

-A New York letter of Tuesday says: "Merchants continue to complain of the backwardness of the spring trade; not one particular branch, but all. The Western dealers are buying sparingly, while Southern orders, as a general thing, are said to be much under the liberal mark which the profitable cotton crop seemed to warrant. Many are inclined to attribute the existing stagnation to the uncertainty which attaches to the future, as the result of the various financial measures pending in Congress; but whatever the cause, there can be no gainsaying the effect, which is visible on every side."

-The New York Herald of Wednesday, in its stock market report, says: "The Southern list yesterday was steady and dull at the boards, but became rather active, and closed strong in later dealings on the street. The Virginias and Louisianas reacted from the dcpression and decline of last week, while the new South Carolinas were very firm. The new Tennessees showed considerable movement. In the North Carolinas the new bonds were a trifle better in consequence of the adic rnment of the Legislature and postponement of repudiation measures such as were adopted in the case of the "special tax" issues. South Carolina sixes closed at 89a90; do. new (July,) 84a85; do. (October,) 85a87."

-An incident which goes far to show the different degrees of respect accorded by the volunteers of Havana to persons of different nationalities, occurred in that city on the trial of the murderer of Greenwald. Mrs. Duniop. who happened to be an eye-witness of the outrage, when giving her testimony in court, waarrayed in a dress profusely adorned with tha very color-sky-blue-which was so obnoxima to the volunteers as to lead to Greenwald's asassination. After she had testified that th persons she saw committing the outrage o the unfortunate and defenceless man wore th. uniforms and cockades of the volunteers, the judge, who it seems was alarmed for the personal safety of Mrs. Dunlop, offered her a guard of regulars, by whom she might be escorted from the court to the consulate. Mrs. Dunlop's reply was significant. "Thank you, sir," she said; "you certainly forget that I am an Englishwoman." She left the court unattended.

-Recent earthquakes in Ecuador, South America, have been quite severe. On the 13th of December a shock of extraordinary violence occurred; the inhabitants became terrified, rushed from their dwellings, feil on their knees and implored for mercy. Several times since many shocks have taken place, but none created great alarm until the 2d instant, when there was one of unusual severity about midday; but the most terrifying one of all took place on the 3d instant, when, between Pedernals and Cabo Passado, the earth was seen to open and emit a hillock of stones from thirty to forty feet high. Behind or near the spot where this occurred stood an earth hill about sixty feet high, which suddenly and enhillock is a circular pond of salt water, and for a long distance surrounding that, the earth, which before was hard and solid, became soft and spongy. The inhabitants of the locality are all positively terror-stricken, and no inducement will take them within a very long distance of the spot.

liabama Speaks-The Citizens' Party

We print in another column a letter from an influential citizen of Alabama, who hopes that the action of South Carolina in forming the CITIZENS' PARTY will bring about a similar movement in his own State and throughout the South. Our correspondent believes that under the banner of the CITIZENS' PAR-TY, with the watchwords of EQUAL RIGHTS AND AN HONEST AND ABLE GOVERNMENT, Alabama, South Carolina, and every Southern State, may press forward to certain victorya victory, be it understood, that they cannot achieve except by the common-sense policy of doing the best that we can for ourselves, and giving our general support to that party which promises and does the most for the advantage and well-being of our people.

The Question of Immigration.

The whole of the middle and upper region of South Carolina is looking anxiously for the arrival of the white immigrants, who shall till the now barren acres, and take part in building up the workshops and factories which are justly expected to do so much for the development and growth of the State. In the low country we must remain dependent, for the most part, on other than Cancasian labor; but in common with the whole South, we have a deep and lasting interest in the encouragement of practical plans for securing white immigration. Different schemes are proposed, and no two men have exactly the same ideas upon the subject. It may, nevertheless, be taken for granted that two considerations are necessary. 1. That the immigrants shall be brought here with safety and with ease. 2. That they shall have the certainty that their industry will soon enable them to become, if they desire, the owners of the land which they till. These general principles must, it would seem, control all plans of immigration, and we are confident that a discussion of the subject by persons representing the different interests, and having a knowledge of the strong and the weak points of our situation, would end in the preparation of a general system for the government of the whole State. We have already at least one successful immigration society in South Carolina, but we need a score, and there should be a chief office with the facilities for taking charge of the immigrants until they go forwhich will be held in this city next month.

At this convention the experience and information of the whole State can be represented, and the great question of immigration can be thoroughly and deliberately discussed. The subject is one of vast importance, and we trust that the counties which have not yet appointed delegates to the May convention will do so at once.

The Police Force.

At the last meeting of the City Council an ordinance was introduced for the regulation of the police force, its object being to keep the cost within the amount, appropriated by Council for that department. For some reason the ordinance was withdrawn, but its scope is shown in the following table of the cost of the department for a year, according to the new scale:

2	Lieutenants at \$1200	2400
2	Sergeants at \$800	1600
70	Privates at \$720	50,400
4	Doorkeepers at \$600	2100
2	Hostlers at \$600	1200
7	Steeplemen at \$369	2520
	Daymen at \$300	900
	Carpenter	720
	Clerk	900
	Horses at \$180	1090
		\$65,620
1	Licutenant Detectives	
4	Privates	2880

Total\$69,500 The amount appropriated for the police force is \$70,000, and it was not, we presume, expected to pay out of that amount the expenses of the detective force. Yet it is plain enough that we can have a police and detective force, sufficiently strong for all our purposes, for an amount of seventy thousand dollars, which is undoubtedly fully as much as the city can afford to pay. At its present strength, the police force cannot be kept up for \$70,000 a year, and it is the duty of Conneil to change the organization and bring it down to the specified standard. If Council will not do this, the public will be forced to the conclusion that all this talk about retrenchment and reform is nothing more

WE PRINT in supplement form to-day the rules and regulations for the government of the spring exhibition of the Charleston County Agricultural and Horticultural Association, which opens to the public on May 3. A large number of premiums and prizes are offered to the exhibitors, and the gathering promises to be one of rare importance and interest.

THE work goes bravely on! At a meeting of Crrizens held in Columbia on Thursday to prepare for the municipal elections, a committee of ten white voters and ten colored voters was appointed to canvass ach ward. Camden is running a straight out Crrizens' Party ticket for inten l nt and wardens for the ensuing year.

Judge Orr and National Politics.

One of the most magnificent signs of the times is an editorial in the New York Herald, calling on President Grant to reconstruct his Cabinet and give the Hon. James L. Orr a place therein. The Herald says: "The time is not far off when Gene-"ral Grant will have to reorganize the Cabi-"net. The present one is weak and sec-"tional. With the restoration of the South "some one should be taken from that part of the country. Such a man, for example, "as General Orr, of South Carolina. With this large experience, thorough national "views and great ability, he would be a valuable Cabinet Minister at the present "time. His appointmennt, too, would go "far to heal our sectional difficulties."

Current Literature.

THE RURAL CAROLINIAN. The April number of this magazine, in varicty as well as in merit, is some distance in advance of any of its predecessors, and we note with pleasure the breadth of view and catholicity of spirit which mark the expres sions of editorial opinion and the letters of the numerous correspondents. The illustrations are excellent, and the typography without a blemish. Of the contents of the April number it is sufficient to say that the different articles cover the subjects of agriculture, horticulture, stock and natural history, labor and immigration, mining and rural architecture. Under

great practical importance. The editorial department is especially interesting. As it now stands, the "Rural Carolinian" is, to the Southerner the most valuable and trustworthy agricultural magazine published on this continent; while in beauty of appear ance and cheapness of price, no less than in the go-ahead-ativeness of its proprietors, it has no superior.

each head the articles are numerous and of

The "Rural Carolinian" is published by Walker, Evans & Cogswell, and D. Wyatt Aiken, of this city. Price \$2 a year.

HAMMER AND RAPIER. By John Esten Conuthor of "Surry of Eagle's Nest," "H Hilt," &c. New York : Carleton.

This is a series of sketches of the most dramatic scenes of the Confederate war, beginning with victorious Manassas and ending with the surrender at Appomattox. The tale is told with the fervor and graphic spirit common to the war-writings of Major Cooke, who, as a staff officer of General Stuart, enjoyed excellent opportunities of beholding the inner wheels of the grand military machine known as the Army of Northern Virginia. There is some sadness in reading of the old and happy days when the Southern steel was bright and legions of brave men were battling nobly for honor and for country; but sad though the retrospect be, it will quicken the pulse and stir the heart of the "old Reb" to read the vivid words which paint the glories and the dolours of those who wore the gray. They who were not of us and with us will at least respect and admire. One word more. Major Cooke is not given to criticism or carping, and there is nothing in his book that should offend the daintiest Northern car.

For sale at the Hasel street Bazaar. Price 31 50.

OUR SATURDAY NIGHTS. By Mark M. Poincroy, with thirty illustrations. New York: Carleton, publisher.

"Brick Pomeroy" is the journalistic champion of the laboring classes, and works vigorously and earnestly for their mental and pecuniary improvement. The "Saturday Nights" articles were printed originally in the "Democrat," where they attracted much attention. In their present form they are dedicated "to the wives and the working men of the "world," with the prayer that they may "add "to the happiness of hearts and homes." For sale at the Hasel street Bazaar. Price \$1 50.

THE FINEST SEASONING EVER INTRODUCED TO THE PUBLIC.

CURRINE is composed of nothing but the purest Spices of Mexico, the West Indies and Brazil, and imparts a delightful flavor and a rich color to everything in which it is used. Read the following testimonial:

G. Decordova, Esq.:

DRAR SIR—Having given your CURRINE an ampie trial in soups and sauces, and on steaks, cutiets, &c., we take pleasure in saying that it is a most palatable condiment, and that we highly converse of it. Your operliant servants. LACE POINTS and SACQUES, approve of it. Your obedient servants, S. LELAND & CO.

DAVIS & MILLER'S

FLAVORING EXTRACTS. IMPORTANT ANNOUNCEMENT.

GREAT REDUCTION IN PRICES.

We beg leave respectfully to call the attention of the public to our Superior Flavoring Extracts, As ten years have now elapsed since we first in-troduced them to the notice of the American pub-Cash Assets......\$650,000. As ten years have now enapsed since we has introduced them to the notice of the American public, we deem it unnecessary at present to enter into a lengthy description of their merits, &c. There is hardly a city or town of any note in the country into which they have not found their way. The reason of this widespread popularity and dally increasing demand is owing entirely to their peculiar excellence and intrinsic worth. Being determined to make them the Standard Extracts of the day, we have still further improved their quality, and now we firmly and honestly believe that they stand without a rival. Our Vanilla Extract cannot be surpassed for richness and delicacy of flavor. It is a strictly pure and highly concentrated Extract of Vanilla Beans. In short, we think it the best that is made, at least, this is the decision of the best judges in the country. We don't pretend to compete in price with many of the so-called Flavoring Extracts of the day, which are really but worthless compounds, unlessrying of the name.

For quality and style, we defy competition. THREE-FOURTHS OF THE PROFITS DIVIDED BY THIS PLAN OF INSURANCE THE ASSURED ecome interested in the profits of the business The management of affairs of the Company heretofore gives almost positive assurance of LARGE YEARLY DIVIDENDS to the holders of
